Profile of Ibaraki Town

Town Charter

This is a stylized version of the first character of the name of the town.
The acute angle represents the development of the town, while the circle represents its harmonious nature.

Town Flower, Tree, and Bird

Cherry Blossoms

The cherry blossom was selected for nostalgic strains such as the Odo no Sakura and the Senkanzakura cherry trees, which are located in the town vicinity, as well as the fact that the cherry blossom has symbolized the heart of the Japanese people from long ago.

Plum Blossoms

The plum blossom was selected because of the fact that it is a harbinger of early spring, plus the idea that it represents the town as it grows, and due to its widespread presence across the town.

Japanese Bush Warbler

This warbler was selected for its beauty and because its song—full of hope—announces the beginning of spring, because many live in the town, and because it is a familiar bird.
